

Accessibility Statement

Effective Date: August 2026

Last Updated: August 2026

1. Accessibility Statement

At **Cosmo Foundation**, we believe that information and opportunities should be accessible to everyone. We are committed to providing a website that is inclusive, user-friendly, and accessible to people of all abilities.

Our goal is to continuously improve the accessibility of www.cosmofoundation.in so that visitors can easily access information about our programmes, initiatives, publications, and opportunities to engage with our work.

2. Our Commitment

We are committed to making our Website as accessible as reasonably possible by following recognised accessibility principles and continuously improving the user experience.

As our Website evolves, we will continue to review and enhance its accessibility wherever practical.

3. Accessibility Features

Where reasonably possible, our Website aims to provide:

- Clear and consistent navigation.
- Readable fonts and appropriate text sizing.
- Logical heading structures.
- Descriptive page titles.
- Alternative text for informative images where appropriate.
- Keyboard-friendly navigation for core website functions.
- Responsive design for desktop, tablet, and mobile devices.
- Appropriate colour contrast to improve readability.
- Meaningful link text where practical.

4. Images and Visual Content

Our Website includes photographs, illustrations, graphics, and other visual elements to support communication and storytelling.

Where practical, informative images are accompanied by descriptive alternative text to improve accessibility for users who rely on screen readers.

Some decorative or AI-assisted illustrations may not require alternative text where they do not convey essential information.

5. Documents and Publications

The Website may provide downloadable reports, publications, newsletters, and other documents.

While we aim to make these resources as accessible as reasonably possible, some historical documents or third-party materials may not fully meet current accessibility standards.

We are committed to improving the accessibility of future publications wherever practical.

6. Third-Party Content

Certain areas of the Website may include content or services provided by third-party platforms, such as embedded videos, maps, or social media feeds.

Although we encourage accessibility across all services, Cosmo Foundation cannot guarantee the accessibility of third-party content that is outside our control.

7. Ongoing Improvements

Accessibility is an ongoing process rather than a one-time effort.

We regularly review our Website and seek opportunities to improve usability, readability, and accessibility as technology and best practices evolve.

8. Feedback

We welcome feedback from our visitors.

If you experience difficulty accessing any part of our Website or have suggestions for improving accessibility, please let us know.

Your feedback helps us improve the experience for everyone.

Please contact us at:

Email: contact@cosmofoundation.in

We will make reasonable efforts to review and respond to accessibility-related feedback in a timely manner.

9. Continuous Review

This Accessibility Statement may be updated periodically as our Website evolves or accessibility improvements are implemented.

Any updates will be reflected by revising the "Last Updated" date shown at the top of this page.

Thank you for helping us make our digital presence more inclusive and accessible.
